

Government Information (Public Access) Act 2009

Explanatory Table – Sydney Football Stadium Project

Under the *Government Information (Public Access) Act 2009* (NSW) (**GIPA Act**), there is a general public interest in favour of the disclosure of government information. However, where there are overriding public interest considerations against disclosure, or there are commercial-in-confidence provisions, such information will not be disclosed.

In determining whether certain information in the transaction documents for the Sydney Football Stadium Project should be disclosed, Infrastructure New South Wales identified the reason(s) under the GIPA Act for each redaction and weighed each redaction against the following key public interest considerations for disclosure:

- (a) promoting open discussion of public affairs, enhancing government accountability or contributing to positive and informed debate on issues of public importance;
- (b) informing the public about operations of agencies and, in particular, their policies and practices for dealing with members of the public; and
- (c) ensuring effective oversight of the expenditure of public funds.

Capitalised terms in this table have the meaning given to them in the Sydney Football Stadium Design and Construction Contract unless the context indicates otherwise.

Explanatory Table – Design and Construction Agreement

This table provides an explanation of the information that Infrastructure New South Wales (**INSW**) determined should not be disclosed in connection with the Design and Construction Contract (**D&C Contract**) entered into by INSW and Lendlease Building Pty Ltd for the Sydney Football Stadium Project (**Project**).
