Night works – electrical feeder investigations

01 April 2021

Dear neighbour

The NSW Government is delivering an authentic new Sydney Fish Market (SFM) which will sit at the heart of a revitalised Blackwattle Bay and return inaccessible parts of the harbour foreshore to the community.

As part of the development, a new electrical feeder line is required in order to energize the new precinct.

Site investigation work – Bridge Road (from Lyons Road to Wattle Street)

Due to the recent unprecedented wet weather our planned investigation works in your area have been delayed. The planned works, which commenced on 8th March, are now required to have a new completion date of 16th April (previously 8th of April).

Please see location map overleaf with updated zones.

The proposed route for the line is from the zone substation at Lyons Road in Camperdown to the new SFM site.

The remaining works will involve potholing. The works will be undertaken at night and will be staged to provide respite to impacted residents. There are no daytime impacts.

Hours of work

Working hours will be between 8pm to 5am, Monday to Friday. This is to minimise the impact on traffic and pedestrian movement.

High noise works such as saw cutting and pavement removal for the potholing will be undertaken early in the shifts to minimise impacts.

To provide respite works will take place in a zone for no more than 2 nights per week.

What to expect

There may be some impacts to traffic and pedestrian movements. Traffic control will be in place to guide vehicles and cyclists around the works zone. Safe alternative routes and crossings for pedestrians will also be provided.

Some kerbside parking spaces may be unavailable for short periods during the work. Driveway access for residents will be maintained.

For more information on these works, contact us on 1800 271 114

We understand the potential impacts this may cause to our neighbours. Thank you for your understanding during this work. We will keep you updated as we progress.

Location of work

The red and blue markings outline the areas where staged works will be undertaken, as per the schedule below.

Scheduling of work

The following schedule is indicative only, to give residents an understanding of how many nights a week work will be carried out in their zone. Whilst all endeavours will be made to align with this revised schedule, it remains subject to change and is weather dependent. Should adjustments need to be made, the various controls and respite periods will remain, with no works in any zone for more than two consecutive shifts.

Week 4 – Potholing (continuing from previous weeks scheduled work)

- Monday and Tuesday: areas 1, 2 & 3
- Wednesday and Thursday: areas 5, 6 & 7

Week 5 – Potholing

- Tuesday: area 8 & 9
- Wednesday and Thursday: areas 2, 4 & 6
- Friday: area 1 & 3

Week 6 – Potholing

- Monday: areas 8 & 9
- Tuesday: areas 5 & 7
- Wednesday: areas 1 & 3
- Thursday: areas 5 & 7
